What we look for:

Cooking Equipment Line Up

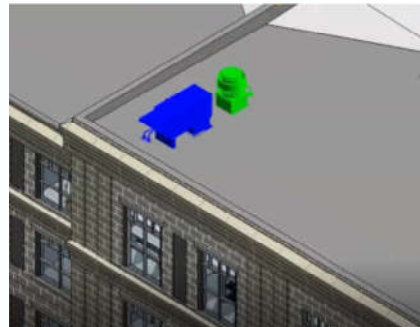

All equipment under the hood with size of the equipment or the model number

Location of the cooking equipment line up in the kitchen

Kitchen Location in the building

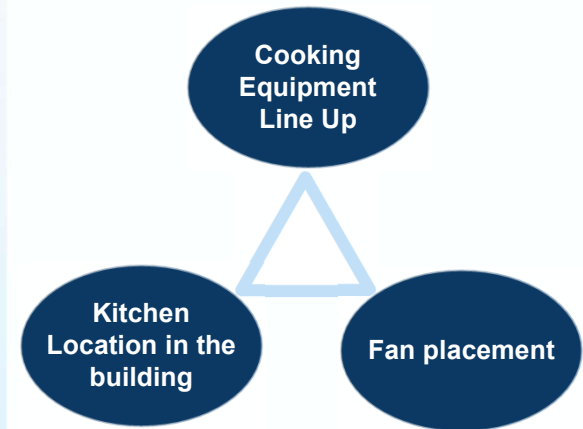

Fan placement

PDF version
scan here

What we look for:

The Cooking Equipment line up, Kitchen's location in the building and Fan Placement will give your Z-VS support team the information required to Design & Quote the ventilation system

If architectural drawings are available in Revit or CAD it will speed up the design process
